Shahil Ahamed

Bengaluru, India | +91 7695904942 | shahilahamed36@gmail.com | LinkedIn | GitHub

Full Stack Developer | MERN | Next.js | TypeScript | REST APIs

Professional Summary

Full Stack Software Developer with 1+ year of professional experience building, maintaining, and deploying production web applications across e-commerce, SaaS, education, and finance domains. Strong in React.js, Next.js, Node.js, Express.js, TypeScript, MongoDB, and RESTful APIs, with hands-on experience in authentication, authorization, role-based access control, and multi-tenant architecture. Experienced in AWS S3, Prisma, Razorpay, cloud deployment, database design, production debugging, testing, and third-party service integration.

Education

B.E. Computer Science and Engineering 2021 – 2025
Krishnasamy College of Engineering and Technology, Cuddalore *Anna University*

Experience

Full Stack Software Developer July 2025 – Present
Aim Window Info Tech *Bengaluru, India*

- Develop and maintain production web applications using React.js, Next.js, Node.js, Express.js, TypeScript, and MongoDB across e-commerce, SaaS, education, and finance domains.
- Develop responsive customer-facing interfaces and admin dashboards using reusable components, RESTful APIs, authentication, authorization, and role-based access control.
- Work on a production multi-tenant school management platform with tenant-aware data access, runtime subdomain-based tenant resolution, and server-side authorization across core school workflows.
- Integrate AWS S3, Razorpay, email/SMS providers, and third-party services for secure file handling, payment workflows, communication, and application integrations.
- Design and work with MongoDB and Prisma data models, backend validation, API workflows, and database-driven application features.
- Investigate and resolve production issues involving CORS, API communication, authentication, cloud storage, deployment, environment configuration, and application behavior.
- Support application deployment and production operations across AWS EC2, PM2, MongoDB Atlas, Vercel, and Render environments.

Projects

PrintOn - Custom Print E-Commerce Platform Live
React.js, Node.js, Express.js, MongoDB, AWS S3, Fabric.js, Razorpay

- Developed a full-stack print-on-demand e-commerce platform with interactive Fabric.js product customization, image editing, text customization, and personalized previews.
- Implemented RESTful APIs and AWS S3 workflows for customized image uploads, storage, retrieval, and media processing; integrated Razorpay payment and order workflows.
- Built admin functionality for products, users, orders, and customized artwork while resolving production issues involving CORS, image rendering, cloud storage, and large-media processing.

XcellSchool Software - Multi-School Management Platform Live | Dev
Next.js, React, TypeScript, Prisma, MongoDB, AWS S3

- Worked on a production multi-tenant school management platform spanning 12 product-facing modules across academics, admissions, attendance, examinations, finance, HR, staff, students, teachers, communication, transport, and inventory workflows.
- Worked across a large application API surface containing 461 endpoints supporting school administration, academic, financial, communication, and operational workflows.
- Implemented tenant-aware access control, runtime tenant resolution through school subdomains, and server-side role-based authorization supporting 12 defined application roles.
- Worked with MongoDB and Prisma across 143 database models, integrated AWS S3 for secure file and document storage, and supported production deployment on AWS EC2 with PM2 and MongoDB Atlas.
- Supported verification workflows covering TypeScript checks, ESLint, tenancy validation, automated tenancy linting, and Vitest-based testing.

Projects

MGR University Finance Management System Live | Dev
React.js, Node.js, Express.js, MongoDB

- Developed full-stack functionality for a university finance management platform supporting secure financial operations, authentication, transaction workflows, and record management.
- Built backend APIs and responsive interfaces for financial data processing and administrative operations using MongoDB-backed workflows.

Coaching Institute Management System Live
React.js, Vite, Node.js, Express.js, MongoDB

- Built a full-stack coaching institute management and quiz platform from scratch with a separate React/Vite frontend and Express.js backend.
- Developed modules for school management, users, teams, quizzes, question management, student quiz attempts, and bulk question uploads with role-based workflows for Admin, Staff, and Student users.
- Implemented RESTful APIs, authentication, role-based access control, and database-driven workflows for core administrative and student operations.
- Independently deployed and configured the frontend on Vercel and backend on Render, integrating the live application with MongoDB for persistent data management.

Technical Skills

Languages: JavaScript (ES6+), TypeScript, Python, SQL
Frontend: React.js, Next.js, HTML5, CSS3, Tailwind CSS, Bootstrap, Vite
Backend: Node.js, Express.js, RESTful APIs
Databases & ORM: MongoDB, MySQL, PostgreSQL, Prisma
Authentication & Security: JWT, jose, bcryptjs, Role-Based Access Control (RBAC), Zod Validation
Cloud & Deployment: AWS S3, AWS EC2, MongoDB Atlas, PM2, Vercel, Render
Payments & Integrations: Razorpay, Brevo, Nodemailer/SMTP, Third-Party API Integration
Testing & Developer Tools: Vitest, ESLint, Git, GitHub, Postman, VS Code, npm, CI/CD
Libraries & Concepts: Fabric.js, Data Structures, Object-Oriented Programming, Database Design, Image Processing, Debugging, Performance Optimization, Deployment, Version Control

Certifications

- **DevOps Certification** — Infosys Springboard Link
- **UI/UX Design Certification** — Ingage Link
- **Introduction to Agile Methodology** — Infosys Link
- **Digital Training on Microsoft OneDrive** — Microsoft Link
- **Network Essentials** — Cisco Link

Professional Skills

- Problem Solving
- Team Collaboration
- Communication
- Leadership
- Agile Development
- Analytical Thinking
- Quick Learner
- Time Management

Declaration

I confirm that the information presented in this resume is accurate to the best of my knowledge.
